

OHS DOCUMENT CONTROL & RETENTION PROCEDURE

SCOPE

This procedure relates to all activities under the management and control of Monash University and applies to affected workers, students, contractors and visitors.

For the purpose of this procedure, references to 'the University' includes activity at Monash University Australia, Monash University Malaysia, Monash University Indonesia, Monash Suzhou, the Monash University Prato Centre and World Mosquito Program Ltd (and its subsidiaries), unless indicated otherwise.

PROCEDURE STATEMENT

This procedure sets out the requirements for document control and retention under the Monash University OHS Management System.

1. Abbreviations

OH&S	Monash Occupational Health and Safety
OHS	Occupational Health and Safety
OHSMS	Occupational Health and Safety Management System
MUOHSC	Monash University OHS Committee
SWI	Safe Work Instructions

2. Centrally Managed OHS Documents

- 2.1 Occupational Health and Safety Management System (OHSMS) documents such as policies, procedures, guidelines and associated tools are centrally managed by Monash Occupational Health & Safety (OH&S).
- 2.2 Document Identification
 - 2.2.1 Every document must be identified by a document title, which includes the type of document (procedure, guideline etc.)
 - 2.2.2 Every document must have a document footer with the following items:
 - Document name;
 - Version number;
 - Date Effective: the month and year the document was implemented;
 - Date of next review: the year the document is due for cyclic review; and
 - Page number

2.3 Document Governance

Every document must have a governance table at the end of the document in accordance with the University's [Policy Framework Procedure](#) with the following items:

- Parent Policy;
- Supporting Schedules, where applicable;
- List of associated procedures;
- Legislation mandating compliance;
- Endorsement body;
- Approval body;
- Procedure Owner;
- Date Effective;
- Date of next review;
- Version; and
- Email for content enquiries.

2.4 Document Review, Endorsement and Approval

- 2.4.1 OHSMS procedures and any associated tools, e.g. guidelines, checklists, forms or posters must be reviewed at least every 3 years.
- 2.4.2 OHSMS procedures may need to be reviewed prior to their allocated review date due to changes to legislation, review of procedures following incidents and to ensure continuous improvement.
- 2.4.3 Consultation must occur during the development of new OHSMS procedures and major changes to existing OHSMS procedures in accordance with the [OHS Consultation Procedure](#).
- 2.4.4 All new OHSMS procedures and major changes to existing OHSMS procedures must be communicated to all stakeholders in accordance with the [OHS Communication Procedure](#).
- 2.4.5 OHSMS procedures must be endorsed by the Monash University OHS Committee (MUOHSC) and approved by the President & Vice-Chancellor or delegate for local implementation by academic/administrative units.
- 2.4.6 Minor changes to documents, e.g. formatting, do not need to be communicated to all stakeholders and do not require endorsement by MUOHSC.

2.5 Version control of documents

- 2.5.1 Every OHSMS document must be identified as version 1 when it is a new document or if the document type changes, e.g. from a guideline to a procedure.
- 2.5.2 A document must be given the next consecutive number following a major change, e.g. version 1, version 2, etc.
- 2.5.3 For minor changes such as formatting or changing a hyperlink, a decimal point is added following the version number, e.g. version 1.0 to version 1.1, etc.

2.6 Document History

- 2.6.1 When a procedure undergoes a minor or major change, the changes that were made must be recorded in the Document History on the final page of the document as follows:

Version	Date Approved	Changes made to document
1.0	Date of current document, e.g. March 2019	Name of current document, e.g. OHS Document Control & Retention Procedure
2.0	Date when reviewed document is approved for implementation, e.g. March 2021	Outline of changes made to document, e.g. Updated Purpose and Scope

- 2.7 Document Register
- 2.7.1 A document register must be maintained to monitor the status of all OHSMS documents and ensure that cyclic reviews are conducted.
- 2.7.2 The document register must include:
- The document title;
 - The version number;
 - Date Effective;
 - Date of next review; and
 - Person Responsible/Review team
- 2.8 Location of documents
- 2.8.1 Electronic versions of all OHSMS documents must be accessible on the [OH&S website](#).
- 2.8.2 The source files for the web documents must be maintained on the OH&S shared/Google drive.
- 2.8.3 Hardcopies of documents must be made available for persons not having ready access to the web site and at other times (e.g. at training courses).
- 2.9 Local Implementation of Centrally Managed OHS documents
- 2.9.1 When a centrally managed OHS document is used directly by an academic/administrative unit, e.g. use of a form or checklist, the document footer must not be changed.
- 2.9.2 When a centrally managed OHS document is adapted for local implementation, e.g. modification of a checklist for local contextualisation, the footer must be updated with local information as set out in section 3.3.1.

3. Locally Managed OHS Documents

- 3.1 Local OHS documents can be developed at the faculty/division/unit, school/department or research group/work group level and include but are not limited to policies, procedures, guidelines, Safe Work Instructions (SWIs), posters and checklists.
- 3.2 Document Title

Every document must be identified by a document title, which includes the type of document (procedure, guideline etc.), e.g. Travelling to Prato Campus Procedure

3.3 Document Footer

Every local OHS document requires the following items in the footer:

- Document title (including version number);
- Responsible Officer/Committee, e.g. Dean/Director, Operational Manager/Laboratory Head, Executive/OHS Committee;
- Page number;
- Date Effective: the month and the year the document was implemented;
- Date of Next Review: the year the document is due for cyclic review; and
- A sentence to indicate the latest version of the document can be found on the Faculty/Division/Unit intranet/website/local drive

An example footer is shown below:

Document title <e.g. Terms of Reference, v1.0>	Responsible Officer: <insert position title, e.g. OHS Committee Chair>	Page 1 of 1
Date Effective: <month, year>	Date of next review: <year>	
For the latest version of this document please go to: <insert location e.g. Faculty/Divisional/Unit intranet, drive>		

- 3.4 Version Control
- 3.4.1 Documents must be given the next consecutive number following a major change, e.g. v1.0, v 2.0 etc.
- 3.4.2 For minor changes such as formatting or updating a hyperlink, a decimal point is added following the version number, e.g. v 1.0 to v1.1.
- 3.5 Review of Local OHS Documents
- 3.5.1 OHS documents must be reviewed at least every 3 years.
- 3.5.2 OHS documents may need to be reviewed prior to their date of review if there are changes to legislation or centrally managed OHS documents, following incidents or to ensure continuous improvement.
- 3.5.3 It is recommended that changes to documents are recorded in the Document History as outlined in section 2.6.
- 3.6 Document Register
- 3.6.1 A document register must be maintained to monitor the status of all local OHS documents and ensure that cyclic reviews are conducted.
- 3.6.2 The document register must include:
- The document title;
 - The version number;
 - Date Effective;
 - Date of next review; and
 - Person Responsible/Review team
- 3.7 Location of documents
- 3.7.1 Electronic versions of all local OHS documents must be accessible on the faculty/division/unit website.
- 3.7.2 The source files for the web documents must be maintained on the faculty/division/unit shared/Google drive.
- 3.7.3 Hardcopies of documents must be made available for persons not having ready access to the faculty/division/unit website and at other times (e.g. at training courses).

4. Responsibility for Implementation

- 4.1 A comprehensive list of OHS responsibilities is provided in the document [OHS Roles, Responsibilities and Committees Procedure](#). A summary of responsibilities with respect to OHS Document Control and Retention is provided below.
- 4.1.1 **Manager, OH&S:** The Manager, OH&S is responsible and accountable for the OHS documents produced by OH&S and their document control and retention requirements. This responsibility includes the development, maintenance, review and evaluation of all centrally produced OHS documents.
- 4.1.2 **Faculty/Divisional Executive:** Members of the senior executive, deans and directors of administrative divisions are responsible for ensuring that document control and retention requirements are followed.
- 4.1.3 **Heads of Academic/Administrative Units:** Heads of academic/administrative units are responsible for the local implementation of this procedure in areas under their control.
- 4.1.4 **Operational Managers/Laboratory Heads:** Operational Managers/Laboratory Heads are responsible for the local implementation of this procedure in areas under the control, including the maintenance, review and retention of relevant local OHS documents.
- 4.1.5 **Local OHS Committee:** Local OHS committees are responsible for the formulation and implementation of OHS improvement strategies for the area, which may include the maintenance, review and retention of local OHS documents in accordance with this procedure.

5. Records

For OHS Records document retention please refer to:
[OHS Records Management Procedure](#)

DEFINITIONS

Key word	Definition
Major Change	A major change to a document has an operational impact on academic/administrative units.
Minor Change	A minor change includes formatting and changes derived from major changes to other documents. A minor change does not have an operational impact on academic/administrative units.
Policy	A policy is a guiding principle, which sets out the planned commitment to a particular issue. It includes a general statement of intent and provides a principle course of action.
Procedure	A procedure defines the process, method or course of action that must be taken.
Guidelines	A guideline provides clear and practical guidance and advice on the implementation of a particular activity or tasks. Compliance with a guideline is not mandatory.
Tool	A tool is a form, template, proforma, chart, poster or information associated with a procedure or guideline. The use of a tool or the direction given by the tool may be mandatory as stated in its associated procedure.

GOVERNANCE

Parent policy	OHS&W Policy
